MOTORCYCLE RIDERWEAR

2021

MAKING LIFE ON TWO WHEELS BETTER

RIDERWEAR

A rider wearing a dark blue jacket and a black helmet is riding a white and red Ducati Scrambler motorcycle. The motorcycle is in motion, as indicated by the blurred background and the motion blur on the wheels. The rider is leaning slightly forward. The motorcycle has a white fuel tank with a red 'X' logo and the words 'SCRAMBLER' and 'DUCATI' on it. The frame is red, and the engine is black. The front wheel is black with a white rim, and the rear wheel is also black. The background is a blurred road with yellow lines.

INFORMATION CORRECT AT TIME OF GOING TO PRINT. ERRORS AND OMISSIONS EXCEPTED. ALL WEIGHTS, VOLUMES AND DIMENSIONS QUOTED ARE APPROXIMATE AND SUBJECT TO CHANGE.

TECHNOLOGY OVERVIEW

START DRY, STAY DRY

Oxford's highest performing membrane, Dry2Dry™ is durably waterproof, windproof and highly breathable—suitable for all riding conditions.

Dry2Dry™ fabrics are engineered to maximise protection from the elements outside and allow water vapour to pass easily from the inside; start dry, stay dry.

CORE BENEFITS

WATERPROOF

WINDPROOF

HIGHLY BREATHABLE

trilaminate

LAYER CONSTRUCTION

Dry2Dry™ Trilaminate Construction:
The highest-performing Dry2Dry™ membrane is
laminated on both sides by durable fabrics.

RELIABLY
WATERPROOF

ULTRA
BREATHABLE

HIGHLY
DURABLE

OXFORD LAB RESULTS

DRY2DRY™ LAMINATE

The Dry2Dry™ membrane is laminated to a durable outer shell.

Dry2Dry™ Laminate combines breathable and durable waterproofing with a comfortable lightweight construction.

DRY2DRY™ MODULAR

The Dry2Dry™ membrane is a separate layer, capable of being fully removed.

Dry2Dry™ Modular construction offers best-in-class versatility with direct cooling and durable waterproofing for use in the widest range of weather conditions.

DRY2DRY™ DROP LINER

A free-floating membrane hidden between the outer shell and lining.

Dry2Dry™ Drop-liner construction offers extended comfort and durable weather protection suitable for a wide range of conditions.

DRY2DRY™ LAMINATED

The Dry2Dry™ membrane is laminated to both the inner lining and outer.

Dry2Dry™ Laminate Glove construction combines durable waterproof protection, high breathability with best-in-class comfort, tactility and fit.

DRY2DRY™ MEMBRANE

The Dry2Dry™ membrane is fixed between the outer and lining.

Dry2Dry™ Gloves Membrane Insert construction offers durable waterproof protection and extended comfort suitable for a wide range of conditions.

DRY2DRY™ BONDED

The Dry2Dry™ membrane is bonded to the boot lining and fixed to the outer.

Dry2Dry™ Bonded Boot Lining construction offers durable waterproof protection and extended comfort suitable for a wide range of conditions

Wind and rain

ADDITIONAL TECHNOLOGIES

warmdry™

THERMAL TECHNOLOGY

Oxford Warmdry™ high insulation, low bulk, detachable thermal liner. Prevents wind chill and holds heat against the body to keep you warm and comfortable in cold weather.

directvent™

COOLING TECHNOLOGY

DirectVent™ allows unrestricted direct-to-body airflow through adjustable vents. Exhaust vents create airflow channels and allows body heat to dissipate.

active CONSTRUCTION

Oxford's Active Construction was developed to defy expectations; reducing bulk to provide long-wearing comfort without movement constraints.

THE SCIENCE OF FABRIC

Patented grid construction knit strengthens performance efficiency by increasing warmth and breathability, while also reducing fabric mass.

LITTLE PARTS, BIG DIFFERENCE

Premium zippers for no fail scenarios

FEEL THE PERFORMANCE

Gold Standard synthetic down for insulation at it's finest

PERFORMANCE. PROTECTION. COMFORT.

Outstanding abrasion and slash resistance, breathability, and stain resistance. Extremely light-weight while still providing high levels of performance for the toughest apparel.

ADVANCED

GO BEYOND THE KNOWN

At Oxford, we believe that life is better on two wheels. So the further we explore on two wheels, the better life gets.

Over the last 40 years, we've maintained an unwavering commitment to making the best motorcycle equipment accessible to as many people as possible.

True exploration is often reserved for the elite; those with the most resources, who can afford the most expensive kit and the most expensive bikes.

Yet we believe that deep down most riders have a wanderlust, a dream of going on an adventure, of taking exploration to the outer limits. So we set out to produce a product range that allows every rider to explore the world fearlessly.

The best roads are challenging and often the conditions are uncertain and variable.

Our Advanced Rider Series offers a better level of versatility to protect from the widest range of conditions.

This means we can ride our bikes harder, further and for longer through the WET, COLD and HEAT.

Our Advanced Rider Series makes adventure on bikes better, pushing the boundaries of innovation so that we can push the boundaries of exploration.

It enables us to...

Go Beyond the Known

TM190202	S - 5XL	Holwell MS Jacket - Red
TM190203	S - 5XL	Holwell MS Jacket - Green

FEATURES

- The Holwell is produced by British Millerain, a company which harks back to a day when goods were transported by wind-powered ships.
- Their sails were made from cotton which was waxed to protect against the ravages of the sea; the material consequently found its way into the clothing which sailors wore to protect themselves from the same weather.
- Respectful of the material's heritage, Oxford's designers have employed traditional tailoring methods to assemble the outer garment.

TM194102	S - 5XL	Harrington MS Jacket - Green
TM194103	S - 5XL	Harrington MS Jacket - Navy

FEATURES

- Of course, it looks good, but why is it a great motorcycle jacket? With a laminated Dry2Dry™ outer shell and taped seams water just falls off the outside.
- The jacket is created from an elasticated material which allows flex in the body when riding.
- For extra protection, there is Dupont Kevlar™ lining where the protector pockets are; back, elbows and shoulders, sandwiched in between the taped outer shell and the soft jacket lining.
- *DuPont™ and Kevlar® are registered trademarks of the e.I.DuPont de Nemours and company and are used with permission.*

TM194503	S - 5XL	Super Hoodie 2.0 MS Grey Camo

FEATURES

- Oxford's Super Hoodie is a soft poly cotton jacket on the outside, but a technical riding garment on the inside.
- It is lined from shoulder to waist and shoulder to cuff with 100% Dupont™ Kevlar® to provide abrasion resistance in the case of an accident.
- The YKK zip is sewn onto both the outer and the anti-abrasion lining, for maximum strength.
- The garment is mesh-lined for comfort and comes with CE-marked elbow and shoulder protectors.
- DuPont™ and Kevlar® are registered trademarks of the e.I.DuPont de Nemours and company and are used with permission.

'OXFORD IS LOOKING TO RADICALLY CHANGE PERCEPTIONS'

RIDE MAGAZINE

ORIGINAL APPROVED

For Oxford's Approved Denim, material innovation was a priority; performance denim built specifically for life on two wheels. From new yarn and fibre technologies to new finishes and dying techniques.

After continuous testing, both in the lab and out on the road, we introduce Armour-lite™ - highly durable denim that maintains a vintage look and softness; jeans you want to wear.

To do this, we worked with skilled weavers and warpers to include a polyamide fibre into the weave – a hard-wearing material originally developed by the military for parachute cords.

A two-way stretch was added to enhance mobility and comfort. We also included a quick dry technology which draws sweat and increases water repellency.

SINGLE LAYER

QUICK DRYING

LIGHTWEIGHT

ORIGINAL STYLE. APPROVED PERFORMANCE.

IT STARTED AS A QUESTION... 'WHAT IF?'

WHAT IF regular jeans offered the same protection as heavy duty riding pants?

Most of our design team ride to work and all struggle to find a trouser which delivers safety whilst riding matched with the comfort and style of a regular jean.

They went out and spent time in motorcycle shops, began asking around, researched what other riders were wearing to work. They listened, learned and realised they weren't alone.

After months of thoughtful design and material innovation, we have addressed the need to make motorcycle denim better. With the introduction of Oxford's single layer jeans:

THE JEANS YOU WANT TO WEAR JUST GOT SAFE

TW190202	8 - 20	Holwell WS Jacket - Red
TW190203	8 - 20	Holwell WS Jacket - Green

FEATURES

- The Holwell is produced by British Millerrain, a company which harks back to a day when goods were transported by wind-powered ships.
- Their sails were made from cotton which was waxed to protect against the ravages of the sea; the material consequently found its way into the clothing which sailors wore to protect themselves from the same weather.
- Respectful of the material's heritage, Oxford's designers have employed traditional tailoring methods to assemble the outer garment.

Waterproof

ORDER DETAILS

Code	Size	Description
TW190301	8 - 20	Churchill Jacket Black
TW190302	8 - 20	Churchill Jacket Navy

FEATURES

- Constructed from 100% Polyester, this waterproof jacket provides an ever-increasing demand for stylish jackets that have to be practical too. Features include a neoprene edged collar and cuffs for real comfort, a removable collar strap and buckle.
- The waterproof construction uses a high thread-count polyester outer with a quilted overlay to the forearms and shoulders.
- A storm flap keeps the worst of the weather at bay and the cuffs have a press stud adjustment.
- It has a shortened front zip so that it is comfortable when sitting.

ORDER DETAILS

Code	Size	Description
TW194501	8 - 20	Super Hoodie WS Tech Black

FEATURES

- Oxford's Super Hoodie is a soft poly cotton jacket on the outside, but a technical riding garment on the inside.
- It is lined from shoulder to waist and shoulder to cuff with 100% Dupont™ Kevlar (R) to provide abrasion resistance in the case of an accident.
- The YKK zip is sewn onto both the outer and the anti-abrasion lining, for maximum strength.
- The garment is mesh-lined for comfort and comes with CE-marked elbow and shoulder protectors.
- DuPont™ and Kevlar® are registered trademarks of the e.I.DuPont de Nemours and company and are used with permission.

DW199203	Regular	8 - 20	OA Jeans WS 2 Year Aged

FEATURES

- For Oxford’s Approved Denim, material innovation was a priority; performance denim built specifically for life on two wheels. From new yarn and fibre technologies to new finishes and dying techniques.
- After continuous testing, both in the lab and out on the road, we introduce Armourlite™ – highly durable denim that maintains a vintage look and softness; jeans you want to wear.
- To do this, we worked with skilled weavers and warpers to include a polyamide fibre into the weave – a hard-wearing material originally developed by the military for parachute cords.
- A two-way stretch was added to enhance mobility and comfort. We also included a quick dry technology which draws sweat and increases water repellency.

RAINSEAL

WATERPROOF SPRAY

This remarkable spray is designed to reproof waterproof and protect virtually any fabric, especially polyester, cotton and nylon.

- Rain droplets simply bead-up and run off the fabric surface and away from seams
- Forms an invisible barrier and protects against water, dirt, oil and bird droppings
- Re-apply every 6 months
- Can be used on clothing, outdoor covers, tents, carpet etc.

APPLICATIONS

- Luggage
- Shoes/boots
- Outdoor covers
- Tents
- Outdoor clothing

SHIFT GUARD SHOE PROTECTOR

This slip-on motorcycle boot shifter protector solves an age-old problem. It fits over any size boot and protects the boot fabric from being ruined by the gear shifter. Keep your shoes unmarked! These are an ideal solution for the urban commute and work perfectly to protect trainers as well as office shoes.

FEATURES

- Universal fit secured with elastic 'hook-and-loop' attachment
- Durable TPR
- Protects shoe from gear shift

Code	Description
OX674	Oxford shift guard shoe Protector

RIDER GRIPS

FEATURES

- Offers true long distance comfort for the pillion
- Comfortable & ergonomic design for the rider
- Fully adjustable double belt system
- Mesh inner lining to increase breathability
- Independently strength tested for your reassurance
- Constructed using High Strength Bonded Nylon thread
- 3M™ High visibility reflective piping

Code	Colour
OX740	Black

MINT WAX COTTON REPROOFER

Stain free, silicone free proofer for wax cotton garments. Quickly and conveniently restore your wax jacket's waterproofing.

- Suitable for all colours of waxed cotton
- Easy to use
- Quick top-up application
- PFC free
- 250ml
- Great for revitalising waxed cotton garments.

Code	Description
OC400	Wax reproofer

HOW TO MEASURE

MEN'S & WOMEN'S SIZES

A - CHEST/BUST

Measure around the fullest part of your chest/bust, keeping the measuring tape horizontal.

B - WAIST

Measure around the narrowest part (typically the small of your back and where your body bends side to side), keeping the tape horizontal.

C - HIPS

Measure around the fullest part of your hips, keeping the tape horizontal.

D - INSEAM

Measure from the top of your inner leg along the inside seam to the bottom of your leg.
